SUMMARY

Geospatial and Energy Data Professional with 15 years of experience, including more than 10 years supporting the Oil & Gas industry. My career has evolved from geological and geophysical data management to geospatial technologies, where I have specialized in GIS application development, ArcGIS Enterprise administration, spatial databases, and web-based geospatial solutions. Currently pursuing an Associate of Applied Science in Computer Programming with a specialization in Cloud Computing and Application Development to expand my expertise in Python, web application development, and cloud-native geospatial solutions.

EDUCATION

Houston City College | Houston, TX |

Graduation: **December 18, 2026**

Degree: *Associate of Applied Science.*

- Honors: *Dean's List* **Spring 2024, Fall 2024, Spring 2025, Fall 2025**
- Major: *Computer Programming: Cloud Computing- Application Development Specialization*
- GPA: 3.66

Sergio Arboleda University | Bogotá, Colombia |

Graduate: **08/2019**

Degree: *Master's in Information Management and Geospatial Technologies.*

- Honors: *Summa Cum Laude, Graduate Project awarded "Meritorious".*
- Relevant Coursework: *Geospatial Information Systems, Data Management.*

Francisco José de Caldas District University | Bogotá, Colombia |

Graduate: **11/2009**

Degree: *Post-Graduate Certificate in Geographic Information Systems*

Pedagogical and Technological University of Colombia | Tunja, Colombia |

Graduate: **07/2004**

Degree: *Bachelor's in Geological Engineering*

- Honors: *Undergraduate Research Project awarded "Meritorious".*

TECHNICAL SKILLS

- *Software & Web Development:* Angular, JavaScript, HTML5, CSS3, XML, Node.js, and Express.
- *Agile Methodologies:* Experienced in collaborative team environments using Agile frameworks.
- *Data & Cloud Architecture:* Python, R, SQL, and AWS Cloud Computing concepts.
- *Databases:* Expertise in database maintenance and management using MySQL, Oracle, and PostgreSQL/PostGIS .
- *Geospatial Technologies (GIS):* Advanced use of ArcGIS Enterprise (Portal & Online), QGIS, Mapbox, and ArcGIS Insights .
- *Digital Image Processing:* Proficient in ENVI, SNAP, ERDAS, and Agisoft Photoscan .
- *Energy & G&G Software:* Technical knowledge of Petrel, DecisionSpace, Openwells, Techlog, and Kingdom Suite .
- *Data Visualization:* Experienced in creating interactive Dashboards and using Power BI for data analysis.
- *Languages:* Native Spanish speaker with Professional Working Proficiency in English (ESL Certified).

PROFESSIONAL EXPERIENCE

Realidad 5.0

02/2022– 08/2023

GIS Developer

- Developed front-end components using Angular for the "RealGIS" application, enabling real-time geographic data collection and visualization.
- Managed corporate architectures for ArcGIS Enterprise web applications, including Portal and ArcGIS Online environments.

- Led the technical integration of complex geographic databases with alphanumeric cadastral systems to ensure data synchronization and integrity.
- Designed interactive dashboards and query viewers to improve decision-making processes for commercial and real estate projects.

Servicio Geológico Colombiano

04/2021 – 12/2021

GIS Professional

- Structured spatial databases for the "Evaluation of the Colombian Paleozoic Basin" project, specifically targeting hydrocarbon exploration data.
- Automated the upload and management of over 200 thematic information layers for urban geoviewers, ensuring data accuracy.
- Produced high-precision structural contour maps and stratigraphic columns to support regional geological assessments.

Agencia Nacional de Hidrocarburos (ANH)

08/2019 – 12/2019

Consultant Datamanagement

- Collaborated with the data management team to consolidate technical information packages for permanent oil area allocation and bidding rounds.
- Contributed to the development of the official manual for delivering geological and geophysical information to the Colombian Geological Service.
- Ensured QA/QC standards for technical exploration and production (E&P) data provided to international oil companies.

Colombian Data Bank Oil & Gas (Outsourcing)

06/2015 – 02/2018

Professional Datamanagement

- Administered and updated massive seismic datasets and well logs to support seismic interpreters in evaluating new exploratory opportunities.
- Facilitated the sale and provision of technical exploration information to major oil operating companies, maintaining high service standards.
- Streamlined the internal data retrieval processes, reducing response times for technical information requests from stakeholders.

Halliburton Latin America (Landmark)

06/2012 – 02/2015

Consultant Datamanagement

- Managed and updated seismic information and well logs to support interpreters in evaluating new exploratory opportunities.
- Supported oil operating companies in the acquisition, sale, and provision of technical E&P information.
- Led the team responsible for managing regional project information in the Caribbean and Llanos areas for ECOPETROL S.A.

AWARDS & ACTIVITIES

- 2026 All-Texas Academic Team
- 2026 World Impact Scholar
- Certified Member, Community Emergency Response Team (CERT)
- Member of the Phi Theta Kappa Honors Society

05/2025 – Present
